

✿ NATURE SWIM ✿

Nature Swim is a Vienna-based Indie band, who made their much-anticipated debut in 2021, with the dreamy Single “Slow Corners.” The group is led by the complementary voices and honest songwriting styles of Maggie and Gabriel, who combine elements of dream pop, bossa nova and jazz to weave a hypnotic and intimate soundscape.

Listening to Nature Swim is an experience akin to floating, weightless down a lazy river made of maple syrup. Just when you think you’re about to sink under the waves, Nature Swim provides the water wings, waking you up with a seductive swoop of the omnichord combined with the enchantment of their voices. Since their early days as local street performers the duo expanded their horizons to incorporate Luca Celine (bass and backing vocals), Nikolai Mrozik (keys) and Michael Naphegyi (drums).

The group has since played various venues throughout Europe even shared the stage with Indie-folk demigod, José González. Nature Swim is now regularly touring in Austria and recently released a new single “For the First Time,” which portrays a feeling of recreation and the joy of truly experiencing oneself again. Right now they are working on their Debut-Album which will be released in Spring 2024.
